▶ Save the Date: Full-Day Seminars on EU Chemicals Legislation and the Biocidal Products Directive

Wednesday, October 15: Washington, DC
Tuesday, October 21: San Francisco

McKenna Long & Aldridge is hosting a full-day intensive seminar this October in Washington, DC and San Francisco. Following on our successful Brussels Seminar in June, these events will address the existing EU chemicals programs, the emerging REACH legislation - the subject of considerable controversy and concern among many companies doing business in the EU - and the Biocidal Products Directive.

Because of the continuing challenges confronting chemical companies under the existing chemicals and BPD rules, and the significantly more daunting challenges that REACH would impose on both these same companies and on a broader array of manufacturers and importers, this program will provide timely and important insight and analysis for affected U.S. companies.

A formal invitation, with a complete agenda, will be forwarded in early September. In the interim, if you have any questions regarding either of these programs, please contact Robert Matthews at 202-496-7737 or rmatthews@mckennalong.com.

▶ MLA Comments Sent to European Commission

In response to the European Commission's May 7 release of its proposed REACH legislation, McKenna Long & Aldridge submitted its comments on the long-awaited proposals for new European chemicals legislation. These comments can be accessed through our website, at <http://www.mckennalong.com/attachment.html/articles/862/mla+reach+submission.pdf>.
